Profile Summary

Motivated IT Quality Assurance (QA) professional with a bachelor's degree in computer science and ongoing master's studies in IT. Completed QA and software testing training at Tech FiOS with hands-on experience in manual testing, API testing, REST/SOAP web services, Java, Agile methodologies, and test case execution. Skilled in Python (Django), Oracle SQL, Selenium, Pandas, JavaScript, HTML, CSS, and Jira. Strong foundation in software development, automation, and web technologies, with hands-on project experience. Passionate about problem-solving, building efficient solutions, and contributing to team success.

Education

Bachelor of Science in Computer Science
ISIMA, 2013 Tunisia

Master's in information technology
SFAX FSEG 2019

Training

Quality Assurance (QA) Training

TechFios / Irving-Texas

- Gained hands-on experience in software testing and QA methodologies
- Worked with REST and SOAP API testing using web services concepts
- Learned SQL queries for backend data validation
- Practiced Agile/Scrum methodologies and defect tracking processes
- Developed knowledge of Selenium automation testing and test case execution
- Worked with tools such as Jira and Postman

Projects

Teacher-Student Platform

Technologies: Python, Django, SQL, HTML/CSS.

- Developed a platform for teachers and students as a freelance project at UIT, enabling user authentication, course management, and communication features between teachers and students.

Task Manager (Django, SQL, HTML/CSS)

- Built a task management web app with user login, task creation, status updates, and deadlines.

Personal Portfolio Website (HTML, CSS, JavaScript)

- Created and deployed a personal portfolio website to showcase projects and technical skills.

Calculator (Python Tkinter)

- Designed a GUI-based calculator application supporting basic arithmetic functions.

Two-Player Shuffle Game (Python)

- Developed a fun interactive shuffle game for two players with scoring system.

Technical Skills

Programming & Frameworks: Python, Django, JavaScript, Tkinter

Data bases: Oracle SQL

Web Technologies: HTML5, CSS3

Automation & Testing: Selenium,

Python Library: Pandas

Tools: Jira, Git/GitHub /Test Case Creation & Defect Tracking

Experience

- ***Freelance Developer (Project for UIT)***
- Developed and deployed a student-teacher platform using Python Django.
- Collaborated with instructors to gather requirements and design features.
- Integrated database models, authentication system, and user-friendly interface.

Strengths

- Strong problem-solving and analytical skills
- Quick learner, adaptable, and detail-oriented
- Effective team player with good communication skills
